

## LEDYARD NATIONAL BANK DONATES TREES TO MINK BROOK

**Mar 4, 2014**

Ledyard National Bank recently partnered with the Connecticut River Watershed Council to clean up the river at Mink Brook in Etna, NH. Ledyard employees volunteered to remove trash and debris from the river and surrounding area.

Ledyard also collaborated with the Connecticut River Watershed Council on a campaign to positively impact the environment. Ledyard's "Think green, save a tree" campaign asked clients to consider switching monthly paper statements to electronic statements. In return, Ledyard donated one tree for each new e-statement opened. The result was a donation of nearly 200 trees that Ledyard employees will help plant along Mink Brook this spring.
